## Introducing DM40Plus

Customize hair removal across a wide range of skin tones like never before.

AresLite® is that the laser energy of a specific wavelength is absorbed by the melanin in the hair follicle, and then converted into heat, which raises the temperature of the hair follicle tissue and ultimately achieves tissue destruction.

-  Use FAC Technology To Get 99% Energy Transfer Efficiency
-  Diode laser No Crystal design, handle piece are pretty light,It allows you to work in a comfortable state for a long time and Reduce the probability of handle damage.
-  Areslite diode laser use IP65 high grade waterproof, fully enclosed to prevent dust from entering
-  Areslite® diode laser design better than microchannel

## The DM40Plus System Highlights

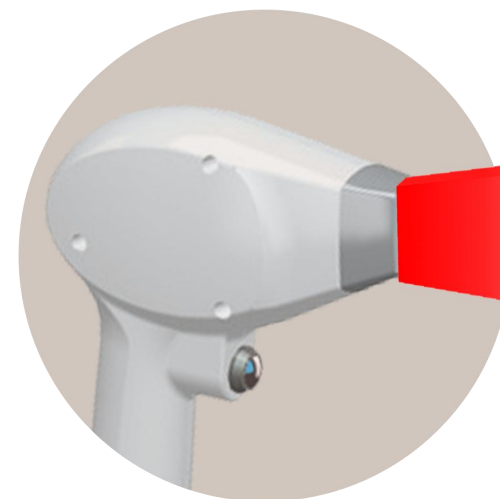

# Synergetic Technologies. Superior Results.

AresLite® diode laser hair removal machine, is equipped with the latest black technology FAC technology, and the spanlife is as high as 100 millions, which is more than 5 times that of other lasers, ensuring your long-term efficient use

Using the world's leading optical **LIMO brand Fast Axis Collimation Free-surface micro-optical technology**, short-distance beams are quickly focused, and the energy density is higher under the same pulse width, achieving high peak power and narrow pulse width hair removal, greatly improving the hair removal effect and experience.

**Add FAC: Beam Focus.**  
At a working distance of 32mm,  
the energy density is  
10J/cm<sup>2</sup>@20ms

**Without FAC: The Beam Diverges Rapidly.**  
At a working distance of 32mm, the  
energy density about 2J/cm<sup>2</sup>@20ms

# One Step Ahead. New of AresLite®!

Smart operation screen  
on the handle

Small  
handpiece

15\*20mm

Providing a solution for large and small areas requiring higher fluence levels.

High Speed  
handpiece

15\*30mm

- Offers a unique pain reduction mechanism.
- Ideal for treating larger body areas, quickly and comfortably.

- \* 3 Years Warranty
- \* FHR/HR/SR all in one
- \* Up 200 Million Lifespan
- \* Intelligent linkage multi-touch HD screen
- \* CLINICALLY PROVEN 3D TECHNOLOGY
- \* SIFHR® 20Hz Least Painful experience
- \* 3 Seconds Temperature Control System
